

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# INTRODUCTORY.

THE first list of the Flora of Los Angeles County was issued by the author in October, 1892, and comprised almost all the then known species on the mainland of the County. Since that time the district has been more thoroughly explored, and numerous additions have been made to the list, not a few of which are of species entirely new to science. In view of these additions the Botanical Section of the Southern California Academy of Sciences has deemed it advisable to issue a second list, to include the plants of both the mainland and the Islands of San Clemente and Catalina, which are embraced in the County area.

In the compilation of this list I desire to express my sincere thanks for the valuable aid rendered by Miss A. J. Merritt, Normal School, Los Angeles; Dr. Hasse, of Santa Monica, and Mr. S. B. Parish, of San Bernardino, who have not only placed the accumulated experience of years of investigation at my disposal, but have also revised the manuscript. To the latter gentleman, whose knowledge of the Flora of Southern California is not surpassed by that of any living authority, I am also indebted for the final revision of the proofs.

From the "Flora of Pasadena," issued by Mr. A. J. McClatchie, I have taken additional records of locality, and the records of species therein quoted which are not familiar to my colleagues or myself are duly acknowledged. Under these conditions this Catalogue may be considered at least fairly accurate.

Some of the species have one or two asterisks prefixed. One \* indicates those recorded of which we have seen no authentic specimens, some of which we feel assured have been wrongly identified. The original authority is appended. Two \*\* indicate those recorded in the Botany of California, Brewer & Watson's second edition, which have not, so far as we are aware, been collected in recent years.

The names printed in italics indicate those species believed to be non-natives of this county.

Local lists without a collection to indicate exactly the plants referred to are of doubtful scientific value. While we are without a museum or other public institution in which to deposit the collections on which this list is founded, the species indicated may be found in the herbaria of the collaborators.

In the present disturbed state of botanical nomenclature neither the method of arrangement nor the specific names chosen may be considered either modern enough, or ancient enough, to suit the pedagogues. For this

the author is alone to blame, his aim in this work having been to produce a useful field guide for the botanists of this coast, and not a critical treatise on species or varieties.

The localities given it is hoped are numerous enough to denote in a general way the rarity or frequency of the plant, its distribution and altitudinal range.

The time of flowering it has been thought advisable to omit, as the period of the winter rains, and the altitude of the district have as marked a determining influence as the aerial temperature.

The County of Los Angeles covers 4,000 square miles of land with a seacoast line of about 100 miles in length. In the land area are included the coast and San Gabriel mountains (the latter reaching to an altitude of 6,000 feet) and the Southern section of the Mojave Desert. The flora is in consequence a varied and extensive one, and comprises a larger number of species than are found in many of the Eastern States.

The number of species and varieties listed in the first Catalogue was 854. In the present list the numbers are 961, divided as follows:

Phænogamia.....	934
Filices.....	20
Equisetaceæ.....	4
Sellaginellaceæ.....	1
Marsileaceæ.....	1
Salviniaceæ.....	1

One new species, a hybrid of our common *Audibertias*, is here published for the first time.

The Botanical Section of the Academy of Sciences has in contemplation the completion of the Floral list by the publication of a second part at some time in the near future, when the resources of the county have been more fully explored.

ANSTRUTHER DAVIDSON, M. D.,

Los Angeles, Cal.

July 1, 1896.

## PLANTS OF LOS ANGELES COUNTY

ANSTRUTHER DAVIDSON, M. C., M. D.

### PART I.

### PHÆNOGAMIA.

#### RANUNCULACEÆ.

**Clematis**, Linn. *Virgin's Bower*.

*ligusticifolia*, Nutt. The common coast species.

*lasiantha*, Nutt. On inland mountains.

**Thalictrum**, Tourn. *Meadow-rue*.

*polycarpum*, Wats. In shady places on foothill streams.

**Ranunculus**, Linn. *Crowfoot*. *Buttercup*.

*aquatilis*, Linn., var. *trichophyllus*, Gray. Quiet pools and zanjās; not common. *Californicus*, Benth. Common.

var. *latilobus*, Gray. Rare; Mountains north of Newhall.

*Cymbalaria*, Pursh. In wet saline soils.

*hebecarpus*, H. & A., var. *pusillus*, B. & W. Oak Knoll.

**Aquilegia**, Tourn. *Columbine*.

*truncata*, F. & M. Oak Knoll; Arroyo Seco; Big Rock Creek.

**Delphinium**, Dios. *Larkspur*.

*cardinale*, Hook. (Scarlet Larkspur.) Limited to the foothills.

*decorum*, F. & M. Frequent in the foot-hill cañons.

*hesperium*, Gray. Near Gorman Station, alt. 3838 feet.

*Parryi*, Gray. Common on inland hillsides.

*recurvatum*, Greene. Frequent around Lancaster.

\**variegatum*, T. & G. Hillsides. (Fl. Pasa.)

**Crossosoma**, Nutt.

*Californicum*, Nutt. Catalina Island.

**Pæonia**, Tourn. *Pæony*.

*Californica*, Nutt. Generally distributed but local.

## BERBERIDACEÆ.

- Berberis, Tourn.** *Barberry.*  
*Nevinii*, Gray. San Fernando.  
*pinnata*, Lag. Near Glendale.  
*repens*, Lindl. Near Manzanita.

## PAPAVERACEÆ.

- Papaver, Tourn.** *Poppy.*  
*Californicum*, Gray. Hills near Pasadena. (Fl. Pasa.)  
*heterophyllum*, Greene. On shady banks; Elysian Park, &c.  
**Argemone, Tourn.**  
*platyceras*, L. & O., var. *hispida*, Prain. In mountain washes.  
*corymbosa*, Greene. Mojave Desert.  
**Platystemon, Benth.**  
*Californicus*, Benth. (Cream cups.) Very common.  
*denticulatus*, Greene. Frequent in cañons and shady places.  
**Dendromecon, Benth.**  
*rigidum*, Benth. (Tree Poppy.) Arroyo Seco; San Fernando Valley and hills.  
*flexilis*, Greene. Catalina Island.  
**Eschscholtzia, Cham.** *California Poppy.*  
*Californica*, Cham. Everywhere common; on the Desert abundant.  
*glyptosperma*, Greene. Mojave Desert.  
*minutiflora*, Wats. On the base of the desert mountains.  
*ramosa*, Greene. San Clemente Island.  
**Canbya, Parry.**  
*candida*, Parry. Local near Lancaster.

## CRUCIFERÆ.

- Draba, Dill.**  
*cuneifolia*, Nutt. Dry grounds in hilly places, not common.  
 var. *integrifolia*, Wats. Pasadena; Santa Monica Range.  
**Athyas, Greene.**  
*pusillus*, Greene. Hillsides, not common.  
**Thysanocarpus, Hook.**  
*curvipes*, Hook. Common.  
*laciniatus*, Nutt. On banks; less common than the last.  
*radians*, Benth. Rare, Gorman Station.  
**Lobularia, Desv.**  
*maritima*, Desv. (Sweet Alyssum). Occasional, casual.  
**Dithyrea, Harv.**  
*Californica*, Harv. Mojave Desert.  
 var. *maritima*, Davidson. Sand dunes, Santa Monica; Redondo.  
**Lepidium, Tourn.** *Pepper-grass.*  
*dictyotum*, Gray. Rancho de las Aguas.  
 var. *acutidens*, Gray. Lancaster.  
*flavum*, Torr. Lancaster and Desert.  
*Fremonti*, Wats. Mojave Desert.  
*lasiocarpum*, Nutt. Azusa; Catalina Island; rare.  
*latipes*, Hook. Brackish flats near Santa Monica.  
*medium*, Greene. Very common on low grounds.  
*nitidum*, Nutt. A common early species.  
**Capsella, Medic.** *Shepherd's Purse.*  
*Bursa-pastoris*, Medic. A common door-yard weed.  
*elliptica*, Meyer. Alkaline grounds on Desert, and sea-shore.  
**Raphanus, Linn.** *Radish.*  
*sativus*, Linn. Waste and cultivated ground.  
**Brassica, Tourn.**  
*campestris*, Linn. (Turnip.) Waste and cultivated ground.

- nigra*, Koch. (Black Mustard.) Too common in heavy soils.  
*alba*, Boiss. (White Mustard.) Near Soldiers' Home.
- Diplotaxis*, DC.** *Wall Cress.*  
*muralis*, DC. Redondo; Third St., Los Angeles; rare.
- Sisymbrium*, Tourn.** *Hedge Mustard.*  
*canescens*, Nutt. (Tansy Mustard.) Frequent in dry places.  
*officinale*, Scop. Waste places in the city; Altadena; Millard's Cañon, &c.  
*incisum*, Eng. var. *filipes*, Gray. Alkaline flats on the desert Mountains.
- Tropidocarpum*, Hook.**  
*gracile*, Hook. Very common on the Desert.  
*dubium*, Davidson. Vicinity of Los Angeles.
- Erysimum*, Tourn.**  
*asperum*, DC. (Western Wall-flower.) Abundant and widely distributed.  
*grandiflorum*, Nutt. On the sea coast.
- Nasturtium*, Linn.**  
*curvisiliqua*, Nutt. Garvanza.  
*officinale*, R. Br. (Water Cress.) Common in running water.
- Cardamine*, Tourn.**  
*Gambelii*, Wats. Cienega; East Los Angeles, and wet places in general.
- Dentaria*, Tourn.**  
*Californica*, Nutt. Mandeville and Laurel Cañons; Santa Monica Range.
- Arabis*, Linn.** *Rock Cress.*  
*Holboellii*, Hornem. Common on the higher mountains.  
*perfoliata*, Lam. Low hills around Los Angeles.  
*perennans*, Wats. Mojave Desert.  
*pulchra*, Jones. Mojave Desert.  
*repanda*, Wats. San Antonio Mountain.
- Streptanthus*, Nutt.**  
*heterophyllus*, Nutt. Foot hills Coast Range.  
*longirostris*, Wats. Hills near Gorman Station; rare.
- Caulanthus*, Wats.** *Wild Cabbage.*  
*amplexicaulis*, Wats. San Fernando; very rare.  
*Coulteri*, Wats. Gorman Station.  
*inflatus*, Wats. Alkaline soils Mojave Desert.  
*procerus*, Wats. Rock Creek; 5,000 feet.
- Thelypodium*, Endl.**  
*lasiophyllum*, Greene. Elysian Park.  
 var. *inalienum*, Robinson. Near Los Angeles.  
*integrifolium*, Endl. Subsaline spots on Mojave Desert.
- Stanleya*, Nutt.**  
*pinnatifida*, Nutt. Newhall; Santa Monica.

## FUMARIACEÆ.

- Dicentra*, Borkh.**  
*chrysantha*, H. & A. Dry and rocky soils, San Gabriel Mountains.  
*ochroleuca*, Eng. Encino; Mandeville Cañon.

## CAPPARIDACEÆ.

- Isomeris*, Nutt.**  
*arborea*, Nutt. In dry soils on coast and mountains.
- Cleome*, Linn.**  
*lutea*, Hook. Field near Downey.
- Cleomella*, DC.**  
*obtusifolia*, Torr. Alkaline soils on Mojave Desert.

## RESEDACEÆ.

- Oligomeris*, Camb.**  
*glaucescens*, Camb. A seaside and alkaline desert herb.
- Reseda*, Linn.**  
*alba*, Linn. Streets of Pasadena; a garden escape.

## CISTACEÆ.

**Helianthemum, Tour.**

*scoparium*, Nutt. Common on dry hills.

## VIOLARIÆÆ.

**Viola, Tourn. Violet.**

*palmata*, Linn., var. *cucullata*, Gray. Cienega; in swamp lands.

*pedunculata*, T. & G. The common violet of the plains.

*præmorsa*, Doug., var. *venosa*, Gray. In the higher pine woods; frequen

## POLYGALEÆ.

**Polygaia, Linn.**

*Californica*, Nutt. A few plants on old Wilson trail.

## FRANKENIACEÆ.

**Frankenia, Linn.**

*grandifolia*, C. & S. Wet soils near the coast.

## CARYOPHYLLÆÆ.

**Silene, Linn. Catchfly.**

*antirrhina*, Linn. Not common but widely diffused.

*Gallica*, Linn. Fields and waysides.

*laciniata*, Cav. Frequent in the foothills.

*multinervia*, Wats. Near Santa Monica.

*Palmeri*, Wats. Wilson's Peak and higher hills.

*platyota*, Wats. Same range as last.

**Cerastium, Linn.**

*triviale*, Link. (Mouse-ear). Common in lawns.

*viscosum*, Linn. Local at Azusa and Evergreen cemetery.

**Stellaria, Linn. Chickweed.**

*media*, With. Shady banks and streets.

*nitens*, Nutt. Cañons of the foothills.

**Arenaria, Linn. Sandwort.**

*Douglasii*, T. & G. Dry foothill slopes.

*macradenia*, Wats. North slope San Gabriel Mountains, 5,000 feet.

*Nuttallii*, Pax. Summit San Antonio Mountains.

*paludicola*, Robins. Swamp near Los Angeles.

**Sagina, Linn. Pearlwort.**

*occidentalis*, Wats. Pasadena; Los Angeles; Santa Monica Range.

**Spergula, Linn. Corn-Spurrey.**

*arvensis*, Linn. Naturalized in and around Pasadena.

**Buda, Adans. Sand Spurrey.**

*gracilis*. Alkaline soils; Downey, Fulton; Los Cerritos.

*macrotheca*, Horn. Salt marshes near the coast.

*media*, Dum. Alkaline soils more inland.

*marina*, Dum. Sea shore Catalina Island and mainland.

**Polycarpon, Linn.**

*depressum*, Nutt. Sandy soils in foothills; somewhat local.

**Læflingia, Linn.**

*squarrosa*, Nutt. Los Angeles streets; Pasadena.

## ILLECEBRACEÆ.

**Pentacæna, Bart.**

*ramosissima*, H. & A. Sea coast, Santa Monica.

PORTULACACEÆ.

- Portulaca**, Tourn. *Purslane*.  
 oleracea, Linn. Streets and cultivated grounds; a common weed.  
**Calandrinia**, HBK.  
 elegans, Spach. Common in cultivated soils.  
 maritima, Nutt. Sea shore, Santa Monica.  
**Claytonia**, Linn.  
 perfoliata, Donn. (Miner's Lettuce). Common in shady places.  
 spathulata, Dougl. King's Cañon; rare.  
**Calyptridium**, Nutt.  
 monandrum, Nutt. Dry ground from sea coast to desert; not common.

ELATINEÆ.

- Elatine**, Linn.  
 Californica, Gray. Wet soil near Soldiers' Home.

CHEIRANTHODENDREÆ.

- Fremontia**, Torr.  
 Californica, Torr. Desert slopes at 5,000 feet.

MALVACEÆ.

- Malva**, Linn. *Mallow*.  
 parviflora, Linn. A noxious weed.  
**Lavatera**, Linn. *Tree Mallow*.  
 assurgentiflora, Kell. San Clemente Island; Bird Island.  
**Sidalcea**, Gray.  
 delphinifolia, Greene. Lake Catrina; Los Angeles.  
 var. humilis, Greene. Loamy meadows from Los Angeles to Newhall.  
 parviflora, Greene. Wet soils south of Los Angeles.  
**Modiola**, Moench.  
 Caroliniana, Don. El Monte; Main St., Los Angeles; Santa Anita; rare.  
**Sida**, Linn.  
 hederacea, Torr. Low adobe soils near the seaboard.  
**Malvastrum**, Gray.  
 exile, Gray. Mohave Desert.  
 fasciculatum, Greene. A common foot-hill shrub.  
 Fremonti, Torr. San Gabriel Mountains above 3000 feet.  
 splendidum, Kell. Sierra Santa Monica; San Fernando Valley.  
**Sphæralcea**, St. Hilaire.  
 ambigua, Gray. Desert species at Palmdale and Del Sur.

LINEÆ.

- Linum**, Linn. *Flax*.  
 micranthum, Gray. Dry hillside at Newhall.  
 usitatissimum, Linn. Casual in city streets.

ZYGOPHYLLACEÆ.

- Larrea**, Cav. *Creasote Bush*.  
 Mexicana, Moric. Common on Desert rim at about 4000 feet.

GERANIACEÆ.

- Geranium**, Linn. *Cranesbill*.  
 Carolinianum, Linn. On grassy slopes.  
**Erodium**, L'Her.  
 cicutarium, L'Her. The "alfilerilla" of the foothills.  
 moschatum, Wild. The common "alfilerilla" of the plains.  
 macrophyllum. H. & A. Elysian Park; Santa Monica Range.

**Limnanthes, R. Br.**

\*\* Douglasii, R. Br. Los Angeles. (Bot. Cal.)

**Oxalis, Linn. Wood Sorrel.**

corniculata, Linn. Foothills from Santa Monica to Pasadena.

Wrightii, Gray. Common on dry foothills.

**RUTACEÆ.****Ruta, Linn.**

bracteosa, D. C. Field near El Monte.

**RHAMNÆÆ.****Rhamnus, Linn. Buckthorn.**

crocea, Nutt. Santa Monica Range; San Fernando.

var., ilicifolia, Greene. Common in the foothills.

Californica, Esch. Common in cañons.

**Ceanothus, Linn. California Lilac.**

arboreus, Greene. A notable tree on Catalina Island.

crassifolius, Torr. Frequent in the coast foothills.

cuneatus, Nutt. Azusa, apparently rare; Santa Monica Range, frequent.

divaricatus, Nutt. The most common lilac of the foothills.

integerrimus, H. & A. San Gabriel Mountains, at 5,000 feet.

megacarpus, Nutt. Frequent on lower ranges.

oliganthus, Nutt. Foothills and lower mountains.

sorediatus, H. & A. Sierra Madre foothills

spinosus, Nutt. In the Coast Ranges; not common.

vestitus, Greene. Mojave Desert and desert mountains; not rare.

**VITACEÆ.****Vitis, Tourn. Grape.**

Californica, Benth. Common along streams.

**SAPINDACEÆ.****Æsculus, Tourn. Horse Chestnut. Buckeye.**

Californica, Nutt. Cañons south of Manzanita; not common.

**Acer, Tourn. Maple.**

macrophyllum, Pursh. Ravines of the higher mountains. Santa Monica Range; rare and local.

**ANACARDIACEÆ.****Rhus, Linn.**

diversiloba, T. & G. (Poison Oak.) Most abundant in the Coast Range

integrifolia, B. & H. Abundant on sea cliffs.

laurina, Nutt. Cañons near the sea; Catalina Island; abundant.

ovata, Wats. Glendale; Santa Monica Range.

trilobata, Nutt. Low slopes in the interior

**LEGUMINOSÆ.****Vicia, Linn. Vetch.**

Americana, Muhl. Santa Monica foot-hills; rare.

var. truncata, Brewer. Santa Monica.

linearis, Greene. Common in the Coast Range.

Hassei, Wats. Hills at Santa Monica and Los Angeles.

exigua, Nutt. In sandy soil; not common.

sativa, Linn. Elysian Park; Oak Knoll; Sierra Madre.

**Lathyrus, Linn. Pea.**

violaceus, Greene. Mountains back of Los Angeles.

latiflorus, Greene. Among foot-hill shrubs.

**Astragalus, Linn.** *Rattle-Weed. Loco-Weed.*

- acutirostris, Wats. Del Sur; Mohave Desert.  
 Antiselli, Gray. San Pedro; San Fernando; Newhall; Gorman Station.  
 didymocarpus, Hook. Frequent on low grounds and slopes.  
 dispermus, Gray. Lancaster and Acton.  
 Fremonti, Gray. Lancaster.  
 leucopsis, Torr. The common Rattle-Weed of the County.  
 Mokiensis, Gray. Lancaster; very rare.  
 Nevini, Gray. San Clemente Island.  
 nigrescens, Nutt. Newhall; Catalina Island.  
 oocarpus, Gray. Generally distributed on Mohave Desert.  
 Purshii, Doug. Desert Ranges at 4000 feet.  
 pycnostachyus, Gray. Ballona; San Pedro.  
 tener, Gray. Brackish flats, Santa Monica.  
 trichopodus, Gray. Catalina Island.

**Glycyrrhiza, Linn.** *Liquorice.*

- glutinosa, Nutt. Newhall; Big Rock Creek

**Amorpha, Linn.**

- Californica, Nutt. In shady cañons.

**Psoralea, Linn.**

- orbicularis, Lindl. Frequent in moist grassy places.  
 macrostachya, DC. Marshes along streams.  
 physodes, Dougl. Dry grounds in cañons.

**Lotus, Linn.**

- Americanus, Bisch. Dry grounds in the interior.  
 argophyllus, Greene. San Gabriel Mountains, 3-5,000 feet.  
 crassifolius, Greene. From Rock Creek to Gorman Station, 4,000 feet.  
 Davidsonii, Greene. Wilson's Peak; Rock Creek at 4,000 feet.  
 dendroideus, Greene. Catalina Island.  
 glaber, Greene. Very common.  
 grandiflora, Greene. Rustic Cañon, Santa Monica Range. (Hasse).  
 Heermanni, Greene. Common in sand washes.  
 humistratus, Greene. Catalina Island.  
 junceus, Greene. Redondo.  
 leucophyllus, Greene. San Gabriel Mountains; Sierra Liebre.  
 micranthus, Benth. Santa Monica Range; Catalina Island.  
 Nevadensis, Greene. In pine woods of higher mountains.  
 nudiflorus, Greene. Wilson's Peak.  
 oblongifolius, Greene. Arroyo Seco, and other Sierra streams.  
   var. angustifolius, (Wats.) River bank, Elysian Park  
 ornithopus, Greene. Catalina, and San Clemente Islands.  
 rubellus, Greene. Elysian Park.  
 salsuginosus, Greene. Common towards the coast.  
 strigosus, Greene. Common from Los Angeles to lower hills.  
 trispermus, Greene. Along southern rim of Mohave Desert.  
 Wrangelianus, F. & M. Very common and general.

**Trifolium, Linn.** *Clover.*

- amplectens, T. & G. Catalina Island.  
 bifidum, Gray. Near Morgan Station.  
 Catalinae, Wats. Catalina Island.  
 exile, Greene. Catalina Island.  
 fucatum, Lindl. Elysian Park.  
 gracilentum, T. & G. Common in open ground.  
 involucratum, Willd. Common in moist ground.  
 Macraei, H. & A. var. albopurpureum, T. & G. On dry hills.  
 microcephalum, Pursh. On foothill slopes.  
 Palmeri, Wats. Catalina and San Clemente Islands.  
 pratense, Linn. Occasional in lawns.  
 repens, Linn. Lawns and waste places.  
 roscidum, Greene. Glendale.

- stenophyllum, Nutt. Elysian Park ; Oak Knoll ; Fulton Wells.  
tridentatum, Lindl. Common on the plains.
- Mellilotus, All.** *Sweet Clover.*  
*alba*, Desr. Fulton Station and Cienega.  
*Indica*, All. Common on low ground.
- Medicago, Linn.**  
*denticulata*, Willd. (Bur Clover.) Common on lower grounds.  
*sativa*, Linn. (Alfalfa.) Much cultivated ; sometimes spontaneous.
- Cytisus, Linn.**  
*Canariensis*, Linn. (Broom.) Arroyo Seco at Pasadena.
- Lupinus, Linn.** *Lupine.*  
*albifrons*, Benth. Hills around Los Angeles.  
*affinis*, Agardh. Very common.  
*Arizonicus*, Wats. Big Rock Creek.  
*Chamissonis*, Esch. Abundant on the seashore.  
var. *longifolius*, Wats. Sierras from 4,000 feet up.  
*concinus*, Agardh. Catalina Island.  
*cytisoides*, Agardh. Along foothill streams.  
*densiflorus*, Benth. Newhall and the Mohave Desert.  
*formosus*, var. *Bridgesii*, Greene. Common.  
*hirsutissimus*, Benth. Dry places in the foothills.  
*latifolius*, Agardh. Santa Monica Range. (Hasse.)  
*micranthus*, Dougl. Very common on the plains.  
*Shockleyi*, Wats. Lancaster ; Palmdale.  
*sparsiflorus*, Benth. Sierra foothills ; Coast Ranges.  
*truncatus*, Nutt. Common.
- Pickeringia, Nutt.**  
*montana*, Nutt. Laurel Cañon.
- Thermopsis, R. Br.**  
*Californica*, Wats. Lake Catrina.

## ROSACEÆ.

- Prunus, Tourn.**  
*demissa*, Walp. (Choke-Cherry.) Rock Creek, 4,000 feet.  
*fasciculata*, Gray. (Wild Almond.) Desert slope of Sierras, 4,000 feet.  
*ilicifolia*, Walp. (Wild Cherry.) Common in the foot-hills.  
*occidentalis*, Lyon. Catalina Island.
- Spiræa, Linn.**  
*discolor*, Pursh. Local. Elysian Park ; San Gabriel Mountains ; Santa Monica Range.
- Rubus, Linn.**  
*leucodermis*, Dougl. (Raspberry.) Wilson's Peak.  
*ursinus*, C. & S. (Blackberry.) Abundant on low grounds.
- Purshia, D. C.**  
*glandulosa*, Curran. Mohave slope, from Palmdale east.
- Coleogyne, Torr.**  
*ramosissima*, Torr. Mohave Desert ; throughout Lower Sonoran.
- Cercocarpus, H. B. K.**  
*betulæfolius*, Greene. (Mountain Mahogany.) Elysian Park ; Sierra foothills.
- Potentilla, Linn.** *Cinquefoil. Five-Finger.*  
*Anserina*, Linn. (Silver Weed.) Wet places ; Ballona ; Cienega.  
*Bolanderi*, Gray, var. *Parryi*, Wats. Big Rock Creek, 5,000 feet.  
\**Californica*, Greene. Frequent below 2,500 feet. (Fl. Pasa.)  
*glandulosa*, Lindl. Shady places in the Coast Range.  
var. *Nevadensis*, Wats. Big Rock Creek, with next.  
*Nuttallii*, Lehm. Big Rock Creek ; 4,000 to 5,000 feet.  
\**Plattensis*, Nutt. Near Ballona. (Hasse.)  
*puberula*, Greene. Dry, open ground, from Los Angeles to Newhall.

**Adenostoma, H. & A. Chamiso.**

fasciculatum, H. &amp; A. The so-called "Grease-wood" of the foothills.

**Alchemilla, Tourn. Lady's Mantle.**

arvensis, Scop. Catalina Island; near Los Angeles.

**Rosa, Linn. Wild Rose.**

Californica, C. &amp; S. Common on stream banks.

gymnocarpa, Nutt. Big Rock Creek.

**Heteromeles, Roem.**

arbutifolia, Roem. (California Holly.) Stream banks in Coast Range.

## SAXIFRAGEÆ.

**Saxifraga, Linn. Saxifrage.**

reflexa, Hook. Near Glendale.

**Boykinia, Nutt.**

occidentalis, T. &amp; G. Topango Cañon.

rotundifolia, Parry. Cañons of San Gabriel Mountains.

**Tellima, R. Br.**

affinis, Boland. Shady hillsides, not common.

**Heuchera, Linn.**

rubescens, Torr. San Gabriel Mountains, 5,000 feet.

**Ribes, Linn. Currant. Gooseberry.**

amarum, McClatchie. Cañons San Gabriel Mountains.

divaricatum, Dougl. Oak Knoll; Riviera; El Monte.

glutinosum, Benth. Frequent in the Coast Ranges.

hesperium, McClatchie. Cañons San Gabriel Mountains.

leptanthum, Gray. Desert slope of San Gabriel Mountains, 4,000 feet.

malvaceum, Smith. Foothills at Duarte.

Nevadense, Kell. Wilson's Peak.

nubigenum, McClatchie. Summit of San Antonio Mountain.

speciosum, Pursh. Common towards the foot-hills.

tenuiflorum, Lindl. Thickets near Pasadena, El Monte, Fernando, etc.

viburnifolium, Gray. Catalina Island.

**Lyonothamnus, Gray.**

floribundus, Gray. Catalina Island.

var. asplenifolius, Brandegee. San Clemente Island.

## CRASSULACEÆ.

**Tillæa, Linn.**

angustifolia, Nutt. Catalina Island.

minima, Miers. Sands of seashore and interior plains.

**Sedum, Linn. Stonecrop.**

obtusatum, Gray. Mount Disappointment, 5,000 feet.

variegatum, Wats. Bluffs near Soldiers' Home.

**Cotyledon, Linn.**

cæspitosa, Haw. Catalina Island.

lanceolata, B. &amp; H. Common in mountain cañons.

pulverulenta, B. &amp; H. Los Angeles and around the Coast.

## LYTHRACEÆ.

**Lythrum, Linn. Loosestrife.**

Californicum, T. &amp; G. Along marshes and streams, common.

**Ammannia, Hous.**

coccinea, Rottb. Near Soldiers' Home.

## HALORAGÆÆ.

**Callitriche, Linn.**

marginata, Torr. Pond near Soldiers' Home.

## ONAGRAREÆ.

**Epilobium, Linn.** *Willow-Herb.*

- \**Californicum*, Hauss. Cienega swamps.
- holosericeum*, Trel. Ballona; Cienega.
- paniculatum*, Nutt. Arroyo Seco; Acton.
- Parishii*, Trel. Common in wet soils.

**Zauschneria, Presl.**

- Californica*, Presl. Common above 2,000 feet.
- var. *microphylla*, Gray. The "Wild Fuchsia" of the foothills.

**Eulobus, Nutt.**

- Californicus*, Nutt. Frequent in dry places.

**Oenothera, Linn.** *Evening Primrose.*

- alyssoides*, H. & A. Echo Mountain.
- bistorta*, Nutt. Frequent and general
- var. *Veatchiana*, Hook. Common around Los Angeles.
- biennis*, Linn., var. *hirsutissima*, Gray. Streams near dwellings.
- brevipes*, Gray. Lancaster.
- cæspitosa*, Nutt. Lancaster, very rare.
- Californica*, Wats. Mohave Desert; Central Ave., Los Angeles.
- cheiranthifolia*, var. *suffruticosa*, Wats. Abundant on the seashore.
- dentata*, Cav. Acton.
- var. *grandiflora*, Wats. Mohave Desert.
- gauræflora*, T. & G. Mohave Desert.
- micrantha*, Hornem. Common on lower grounds.
- Palmeri*, Wats. Lancaster.
- rutila*, Davidson. Rock Creek, 3,500 feet.
- strigulosa*, T. & G. Sandy grounds on the plains.
- var. *pubens*, Wats. Whittier.

**Godetia, Spach.**

- Bottæ*, Spach. Frequent on slopes and hillsides.
- epilobioides*, Wats. Moist ground along foothill streams.
- purpurea*, Wats. Waysides and plains around Los Angeles.
- quadrivulnera*, Spach. Towards the foothills.

**Clarkia, Pursh.**

- elegans*, Lindl. Common at Newhall; Coast Ranges.
- rhomboidea*, Dougl. Wilson's Peak, San Gabriel Mountains.

**Boisduvalia, Walp.**

- glabella*, Walp. Near Santa Monica.

**Gayophytum, A. Juss.**

- ramosissimum*, T. & G. Wilson's Peak; San Gabriel Mountains.

**Ludwigia, Linn.**

- diffusa*, var. *Californica*, Greene. Cienega marshes.
- palustris*, Ell. Ballona; Santa Monica.

## LOSACEÆ.

**Mentzelia, Linn.**

- albicaulis*, Dougl. Acton.
- dispersa*, Wats. Wilson's Peak; San Gabriel Mountains.
- gracilentia*, T. & G. Plains and foothills of the interior.
- lævicaulis*, T. & G. Sand washes from Sierra Madre eastward.
- micrantha*, T. & G. Not infrequent in the foothills.

## CUCURBITACEÆ.

**Cucurbita, Linn.** *Cucumber. Squash.*

- foetidissima*, HBK. (Mock Orange.) Common on the plains.

**Micrampelis, Raf.**

- macrocarpa*, Greene. In thickets in the Coast Range.

## DATISCEÆ.

**Datisca, Linn.**

*glomerata*, B. & H. On stream banks in the foothills.

## CACTACEÆ.

**Cereus, Haw. Cactus.**

*Emoryi*, Engelm. Plains to the eastward.

**Opuntia, Tourn.**

*basilaris*, Engelm., var. *ramosa*, Parish. San Fernando to Desert.

*Bernardina*, Engelm. Saugus.

*echinocarpa*, Engelm. East side of Mohave Desert.

\**Lindheimeri*, Engelm. Common in unbroken soil. (Fl. Pasa.)

var. *littoralis*, Engelm. On the seaboard.

var. *occidentalis*, Engelm. Hills around Los Angeles.

*prolifera*, Engelm. Catalina Island.

## FICOIDEÆ.

**Mesembr. anthemum, Linn. Ice-plant.**

*æquilaterale*, Haw. Among the sands on the seashore.

*crystallinum*, Linn. Maritime sands and marshes.

*nodiflorum*, Haw. Catalina and San Clemente Islands.

**Sesuvium, Linn. Sea Purslane.**

*Portulacastrum*, Linn. Low alkaline lands; Nigger's Slough; Cerritos.

**Mollugo, Linn. Carpet-Weed.**

*verticillata*, Linn. Pond near Garvanza.

## UMBELLIFERÆ.

**Hydrocotyle, Tourn. Marsh Pennywort.**

*prolifera*, Kell. Wet places, San Gabriel River.

*ranunculoides*, Linn. fil. Swamps and sluggish streams, common.

**Bowlesia, R. & P.**

*lobata*, R. & P. Shady hillsides.

**Eryngium, Tourn. Button Snakeroot.**

*petiolatum*, Hook. Redondo.

**Sanicula, Tourn. Sanicle.**

*bipinnatifida*, Dougl. Common on hillsides and open grounds.

*bipinnata*, H. & A. Oak Knoll. (Fl. Pasa.) San Clemente Island.

*Menziesii*, H. & A. Moist woods in foothills.

*nudicaulis*, H. & A. In open grounds.

*tuberosa*, Torr. Dry grounds along foothill streams.

**Velæa, DC.**

*arguta*, C. & R. Dry hillsides.

*Hartwegi*, C. & R. Santa Monica Range.

*Parishii*, C. & R. Wilson's Peak; San Gabriel Mountains, 4,000 feet.

*vestita*, C. & R. San Antonio Peak.

**Conium, Linn. Poison Hemlock.**

*maculatum*, Linn. Oak Knoll; Santee Street, Los Angeles.

**Apium, Linn. Celery.**

*graveolens*, Linn. Abundant in marshes.

**Aplastrum, Nutt.**

*augustifolium*, Nutt. On low ranges, frequent.

**Carum, Linn.**

*Carui*, Linn. (Caraway). Lancaster Station.

*Gairdneri*, B. & H. Ballona meadows.

**Eulophus, Nutt.**

*Pringlei*, C. & R. On the Desert slope of Sierras, 4,000 feet.

**Slum, Linn. Water Parsnip.**

- \**cicutæfolium*, Gmel. Oak Knoll. (Fl. Pasa.)  
*erectum*, Huds. Frequent in pools.  
*heterophyllum*, Greene. Near Pasadena.
- Cicuta**, Linn. *Water Hemlock*.  
*Bolanderi*, Wats. Marshes near Los Angeles.
- Osmorrhiza**, Raf. *Sweet Cicely*.  
*brachypoda*, Torr. Shady ravines, not common.
- Enanthe**, Linn.  
*Californica*, Wats. Oak Knoll. (Fl. Pasa.)
- Selinum**, Linn.  
*capitellatum*, B. & H. Cienega at Big Rock Creek, 5,000 feet.
- Peucedanum**, Linn.  
*dasycarpum*, T. & G. Dry hillsides from Glendale to the Desert.  
*Euryptera*, Gray. Shady cañons at low altitudes.  
*Hassei*, C. & R. Hills at Santa Monica; Los Angeles.  
*Parishii*, C. & R. Hills at Manzanita.  
*utriculatum*, Nutt. Very common on the plains.  
*Vaseyi*, C. & R. Hills near Arroyo Seco. (McClatchie).  
*villosum*, Nutt. Acton.
- Leptotænia**, Nutt.  
*multifida*, Nutt. Hills at Manzanita.
- Daucus**, Tourn.  
*Carota*, Linn. (Wild Carrot.) In streets and waste places.  
*pusillus*, Michx. Frequent on low hills.
- Caucaulis**, Linn.  
*microcarpa*, H. & A. In the foothills.  
*nodosa*, Huds. Oak Knoll.
- Fœniculum**, Adans. *Fennel*.  
*vulgare*, Ger. In streets and waste grounds.
- Pastinaca**, Linn. *Parsnip*.  
*sativa*, Linn. Cienega, Ballona, and other marshes.
- Coriandrum**, Linn. *Coriander*.  
*sativum*, Linn. Occasional in Los Angeles streets.

## ARALIACEÆ.

- Aralia**, Linn.  
*Californica*, Wats. (Spikenard.) Cañons San Gabriel Mountains.

## CORNACEÆ.

- Cornus**, Linn. *Dogwood*.  
*pubescens*, Nutt., var. *Californica*, C. & E. Cienega and other moist places.
- Garrya** Dougl.  
*Veatchii* Kell., var. *flavescens*. C. & E. San Gabriel Mountains, 3,000 to 4,000 feet; local.

## CAPRIFOLIACEÆ.

- Sambucus**, Tourn. *Elder*.  
*glauca*, Nutt. Common.
- Symphoricarpus**, Dill. *Snowberry*.  
*mollis*, Nutt. Common in the Coast Range.  
*oreophilus*, Gray. Acton.
- Caprifolium**, Brun. *Honeysuckle*.  
*hispidulum*, var. *Californicum*, Greene. Catalina Island.  
*subspicatum*, Greene. The common form in the County.

## RUBIACEÆ.

**Galium, Linn.** *Bedstraw.*

- Andrewsii*, Gray. Dry summits of the San Gabriel Mountains.  
*angustifolium*, Nutt. Common on the lower hills.  
*Aparine*, Linn. (Cleavers.) Cañons in the foothills.  
 var. *Vaillantii*, Koch. Catalina Island.  
*buxifolium*, Greene. Catalina Island.  
*Californicum*, H. & A. Desert slope of San Gabriel Mountains.  
*Catalinense*, Gray. Catalina Island.  
*grande*, McClatchie. San Gabriel Mountains, frequent.  
*Miguelense*, Greene. Catalina Island.  
*multiflorum*, Kell. Rock Creek.  
*Nuttallii*, Gray. Very common.  
*occidentalis*, McClatchie. Common above 3,000 feet.  
*trifidum*, Linn. Hills near Los Angeles.

## VALERIANACEÆ.

**Valerianella, Mœnch.**

- macrocera*, Gray. Low grounds; Elysian Park; Glendale.

## DIPSACEÆ.

**Dipsacus, Linn.** *Fuller's Teasel.*

- fullonum*, Linn. River bank at Los Angeles.

**Scabiosa, Linn.**

- stellata*, Linn. Along streets at Altadena.

## COMPOSITÆ.

**Brickellia, Ell.**

- Californica*, Gray. Not infrequent on banks.  
*Nevinii*, Gray. Cañons near Newhall.

**Gutierrezia, Lag.**

- \*\**Californica*, T. & G. Near Los Angeles. (Bot. Cal.)  
*Euthamiae*, T. & G. Very common on dry and rocky ground.

**Grindelia, Willd.**

- cuneifolia*, Nutt. Salt marshes; Wiseburn.  
*robusta*, Nutt. (Gum Plant.) On dry hills, not common.

**Pentstemon, Nutt.**

- aurea*, Nutt. Arroyo Seco, very rare.  
*Lyoni*, Gray. San Pedro; Catalina Island.

**Heterotheca, Cass.**

- grandiflora*, Nutt. A common autumn weed of the plains.

**Chrysopsis, Nutt.**

- \*\**villosa*, Nutt., var. *sessiliflora*, Gray. Along the Coast.  
 var. *echioides*, Gray. Common on interior plains.

**Aplopappus, Cass.**

- cuneatus*, Gray. Rubio Cañon; Lancaster.  
*ericoides*, H. & A. On the sea shore, abundant; Los Angeles.  
*interior*, Colv. Lancaster.  
*monactis*, Gray. San Gabriel Mountains; Mohave Desert.  
*pinifolius*, Gray. Cañons north of Los Angeles, common.  
*Palmeri*, Gray. Los Angeles and surrounding plains.  
*squarrosus*, H. & A. Common on dry hills.

**Acamptopappus, Gray.**

- sphaerocephalus*, Gray. Mohave Desert.

**Bigelovia, DC.**

- acradenia*, Greene. Mohave Desert.  
*graveolens*, Gray. Mohave Desert.  
 var. *glabrata*, Gray. Acton.

- Parishii*, Greene. Wilson's Peak.  
*teretifolia*, D. & H. Near Fort Tejon.  
*veneta*, Gray. Common on hills near Los Angeles.
- Solidago**, Linn. *Golden-rod*.  
*Californica*, Nutt. Common on the higher mountains.  
*confinis*, Gray. Cienega; Glendale; Arroyo Seco.  
*occidentalis*, Nutt. Stream banks.
- Lessingia**, Cham.  
*glandulifera*, Gray. Common in arid ground.
- Belvis**, Tourn. *Daisy*.  
*perennis*, Linn. Casual in lawns.
- Corethrogyne**, DC.  
 \*\**Californica*, DC. Monterey to San Diego. (Bot. Cal.)  
*flaginifolia*, Nutt. Common in the foothills.  
*var. virgata*, Gray. Wilson's Peak.
- Aster**, Tourn. *Aster*.  
*exilis*, Ell. Common in river bottoms.  
*hesperius*, Gray. Cienega.  
*Fremonti*, Gray., *var. Parishii*, Gray. Cañons San Gabriel Mountains.  
*Menziesii*, Lindl. Cienega; dry hillsides; very local.  
*tortifolius*, Gray. Mohave Desert, on southern rim.
- Erigeron**, Linn. *Fleabane*.  
*Canadensis*, Linn. Common weed on the plains.  
*foliosus*, Nutt. Common from 2,000 to 5,000 feet.  
*var. stenophyllus*, Gray. San Gabriel Mountains.  
*Philadelphicus*, Linn. In low wet soils; San Gabriel River; Fulton.
- Conyza**, Less.  
*Coulteri*, Gray. Avalon; Oak Knoll; Santa Monica Range.
- Baccharis**, Linn.  
*Douglasii*, DC. Glendale; Los Angeles River.  
*Emoryi*, Gray. Redondo; Long Beach; Cerritos.  
*glutinosa*, Pers. Moist flats near Los Angeles.  
*pilularis*, DC. Near Santa Monica.  
*Plummeræ*, Gray. Topango Cañon.  
*viminea*, DC. Very common along streams.
- Pluchea**, Cass.  
*borealis*, Gray. River at El Monte.  
*camphorata*, DC. Marshy grounds and rivers, Los Angeles and San Gabriel.
- Micropus**, Linn.  
*Californicus*, F. & M. Hills and ridges near Los Angeles.
- Stylocline**, Nutt.  
*gnaphalioides*, Nutt. Open grounds in the foothills.
- Psilocarphus**, Nutt.  
*globiferus*, Nutt. Dry ridges of the Coast Range.
- Filago**, Tourn.  
*Arizonica*, Gray. Catalina Island.  
*Californica*, Nutt. Frequent on dry ridges.
- Anaphalis**, DC.  
*margaritacea*, B. & H. Catalina Island.
- Gnaphalium**, Linn. *Everlasting*.  
*Californicum*, DC. Common on the plains and lower hills.  
*leucocephalum*, Gray. Frequent from 1-3,000 feet. (Fl. Pasa.)  
*microcephalum*, Nutt. Frequent along dry water courses.  
*palustre*, Nutt. Moist grounds, not common.  
*ramosissimum*, Nutt. Los Angeles; Oak Knoll.  
*Sprengelii*, H. & A. Sandy grounds and dry banks.
- Melampodium**, Linn.  
*perfoliatum*, HBK. Moist and cultivated grounds in the city.
- Iva**, Linn.  
*axillaris*, Pursh. Sandy saline soil, Big Rock Creek.

**Dicoria, T. & G.***canescens*, T. & G. River wash, East Los Angeles.**Hymenoclea, T. & G.***Salsola*, T. & G. Mohave Desert.**Ambrosia, Tourn. Ragweed.***psilostachya*, DC. Common weed, roadsides and wastes.**Franseria, Cav.***acanthicarpa*, Hook. Sandy soil around Los Angeles.*bipinnatifida*, Nutt. Common on the seashore.*dumosa*, Gray. Mohave Desert.*tenuifolia*, Gray. At Hollywood, abundant.**Xanthium, Tourn. Cockle-bur.***Canadense*, Mill. Common in sandy wastes.*spinosum*, Linn. (Spiny Cockle-bur.) Along streets and wastes.**Balsamorhiza, Hook.***deltoidea*, Nutt. Slopes near Gorman Station.**Gymnolomia, HBK.***multiflora*, B. & H. Occasional, Los Angeles River sands; Santa Monica.**Helianthus, Linn. Sunflower.***annuus*, Linn. Common on the plains.*gracilentus*, Gray. Newhall, rare.*Oliveri*, Gray. Los Angeles.**Jaumea, Pers.***carnosa*, Gray. Salt marshes at the sea coast.**Venegasia, DC.***carpesioides*, DC. Cañons of the Coast Range; not common.

**Perityle, Benth.**

Emoryi, Torr., var. nuda, Rose. On sea coast.

**Monolopia, DC.**

major, DC., var. lanceolata, Gray. San Fernando; Newhall.

**Bæria, F. & M.**

affinis, Gray. Devil's Gate.

chrysostoma, F. & M. Elizabeth Lake.

gracilis, Gray. Abundant on saline soils towards the sea.

Palmeri, var. Clementina, Gray. Catalina and San Clemente Islands.

\*\*tenella, Gray. Los Angeles. (Synop. Flora).

**Syntrichopappus, Lag.**

Fremonti, Gray. Lancaster.

Lemmoni, Gray. Foothills above Manzana.

**Eriophyllum, Lag.**

cæspitosum, Dougl. Common on dry hills.

confertiflorum, var. trifidum, Gray. Catalina Island.

Nevinii, Gray. Catalina and San Clemente Islands.

Pringlei, Gray. Lancaster; Del Sur.

Wallacei, Gray. Pacoima to the Desert.

**Lasthenia, Cass.**

glabrata Lindl., var. Coulteri, Gray. Brackish flats, Los Angeles; Bal-lona.

**Chænactis, DC.**

artemisiaefolia, Gray. A common foothill plant.

Fremonti, Gray. Hills at Manzana, very rare.

glabriuscula, DC. Common on dry hills.

lanosa, DC. Common below 3,000 feet.

santolinoides, Greene. General on San Gabriel Mountains.

stevioides, H. & A. Edge of desert at Manzana.

Xantiana, Gray. Mohave Desert and adjoining mountains.

**Hulsea, T. & G.**

heterochroma, Gray. Wilson's Peak, very rare.

**Blennosperma, Less.**

\*\*Californicum, T. & G. From San Francisco to San Diego. (Bot. Cal.)

**Amblyopappus, H. & A.**

pusillus, H. & A. Catalina Island.

**Helenium, Linn. Sneeze-weed.**

puberulum, DC. Marshes and mountain streams, not common.

**Anthemis, Linn. Ghamomile.**

Cotula, Linn. (Mayweed). Waste grounds and roadsides, common.

**Achillea, Vaill. Yarrow.**

Millefolium, Linn. Dry places in the Coast Ranges.

**Matricaria, Tourn.**

discoidea, DC. Frequent along streets.

**Cotula, Linn.**

australis, Hook. f. Sierra Madre Hotel; Alameda street, Los Angeles.

coronopifolia, Linn. Wet grounds; well established.

**Artemisia, Tourn. Worm-wood. Sage Brush.**

biennis, Willd. Elysian Park.

Californica, Less. The common "Sage Brush" of the interior.

dracunculoides, Pursh. Frequent on the lower hills.

\*Ludoviciana, Nutt. Occasional below 2,000 feet. (Fl. Pasa.)

Parishii, Gray. Newhall.

tridentata, Nutt. Saugus.

trifida, Nutt. Mohave Desert.

vulgaris, Linn. Catalina Island.

var. Californica, Bess. Common.

**Lepidospartum, Gray.**

squamatum, Gray. Sand washes, Los Angeles River and tributaries.

**Tetradymia, DC.**

- canescens, DC. Rock Creek, 6,000 feet.  
 comosa, Gray. From Newhall to, and through the Desert.  
 glabrata, Gray. Mohave Desert.  
 spinosa, H. & A. Scattered on Desert and Desert Mountains.  
 stenolepis, Greene. Antelope Valley.

**Senecio, Tourn.**

- Californicus, DC. Common on lower hills.  
 Douglasii, DC. Very common and general.  
 ionophyllus, Greene. Rock Creek.  
 ilicetorum, Davidson. New trail to Wilson's Peak.  
 Lyoni, Gray. Catalina and San Clemente Islands.  
 multilobatus, T. & G. Hills near Gorman Station.  
 vulgaris, Linn. (Groundsel). Casual.

**Cnicus, Tourn. Plumed Thistle.**

- edulis, Gray. Pasadena.  
 Californicus, Gray. Rubio Cañon; Newhall; Santa Monica Range.  
 occidentalis, Gray. Frequent on hillsides.

- Clevelandi, Greene. Common on open hillsides  
 Hendersoni, Gray. Catalina Island.  
 Jeffreyi, Moore. Catalina Island.

**Anagallis, Linn. Pimpernel.**

- arvensis, Linn. Abundant in waste grounds.

**Samolus, Linn. Brookweed.**

- Valerandi, Linn., var. Americanus, Gray. Along brooks and marshes,  
 not common.

## OLEACEÆ.

**Fraxinus**, Linn.

dipetala, H. & A. Coast ravines, rather rare.

Oregana, Nutt. Ballona Creek.

**Forestiera**, Poir.

Neo-Mexicana, Gray. Southern border of Mohave Desert.

## APOCYNACEÆ.

**Apocynum**, Tourn. *Indian Hemp*.

cannabinum, Linn. Kuhrts Street marsh, Los Angeles; Arroyo Seco.

**Cycladenia**, Benth.

humilis, Benth. San Antonio Mountain.

## ASCLEPIADACEÆ.

**Asclepias**, Linn. *Milkweed*.

eriocarpa, Benth. Common on dry hills.

Mexicana, Cav. Frequent.

vestita, H. & A., var. Mohavensis, Gray. Mohave Desert.

**Gomphocarpus**, R. Br.

tomentosus, Gray. From Newhall to the Desert.

**Philabertia**, HBK.

linearis, var. heterophylla, Gray. Foothills at Cahuenga.

## GENTIANACEÆ.

**Erythraea**, Pers. *Canchalagua*.

exaltata, Cov. Along streams on the Desert slope.

venusta, Gray. Common on low grounds.

**Frasera**, Walt.

nitida, Benth. Rock Creek, 6,000 feet.

\*\*Parryi, Torr. East of Los Angeles. (Bot. Cal.)

## POLEMONIACEÆ.

**Gilia**, R. & P.

achilleæfolia, Benth. Very common.

androsacea, Steud. Acton.

atratyloides, Steud. Frequent in dry washes.

aurea, Nutt. Abundant on the mesa.

Californica, Benth. A common foothill shrub

capitata, Doug. Waste places; Los Angeles; Newhall.

densifolia, Benth. Dry plains of the interior, frequent.

dianthoides, Endl. Common on sandy soils.

dichotoma, Benth. San Fernando; Mohave Desert, abundant.

divaricata, Torr. On the seaboard.

floccosa, Gray. Lancaster.

glutinosa, Gray. Elysian Park; Glendale; Santa Monica.

inconspicua, Dougl. Mohave Desert.

var. sinuata, Gray. Not common but general on the Desert.

latiflora, Gray. Newhall; Mohave Desert.

var. exilis, Gray. Wilson's Peak.

Lemmoni, Gray. On dry hillsides.

Matthewsii, Gray. Mohave Desert.

micrantha, Steud. Very common and general.

multicaulis, Benth. Very common.

Nevinii, Gray. Catalina and San Clemente Islands.

Parryæ, Gray. Abundant on the Desert.

pharnaceoides, Gray. On dry hillsides.

prostrata, Gray. Alkaline marshes, Laguna; Fulton, etc.

pungens, Benth., var. Hookeri, Gray. Mount Disappointment.

tenuiflora, Benth. Mohave Desert and adjacent mountains.

- tenella*, Benth. Wilson's Peak.  
*tricolor*, Benth. Mohave Desert.  
*virgata*, Steud. Abundant in dry grounds in the interior.  
*viscidula*, Gray. Dry places in interior.

**Phlox, Linn.**

- gracilis*, Greene. Elysian Park; Lincoln Park; in shady nooks.

**HYDROPHYLLACEÆ.****Nemophila, Nutt.**

- aurita*, Lindl. On shady hillsides, frequent.  
*insignis*, Dougl. (Baby Blue-eyes.) Very common.  
*maculata*, Benth. Antelope Valley.  
*Menziesii*, H. & A. Very common.  
*racemosa*, Nutt. Catalina Island.

**Ellisia, Linn.**

- membranacea*, Benth. Damp woods near Gorman station.  
*chrysanthemifolia*, Benth. Frequent on shady banks.

**Phacelia, Juss.**

- bicolor*, Torr. Mohave Desert.  
*\*brachyloba*, Gray. San Gabriel Mountains. (Fl. Pasa.)  
*campanularia*, Gray. Rubio Cañon. (Hasse.)  
*ciliata*, Benth. Hollywood; Los Angeles; Antelope Valley.  
*circinata*, Jacq. f. Frequent on sunny slopes.  
*Davidsonii*, Gray. On Wilson's Peak and throughout the Sierras.  
*distans*, Benth. Common in foothill cañons.  
*Fremonti*, Torr. Los Angeles River; Wilson's Peak; Mohave Desert.  
*grandiflora*, Gray. General on river banks and burned districts.  
*heterosperma*, Parish. Rock Creek.  
*hispida*, Gray. Common.  
*Lemmoni*, Gray. Rock Creek, 5,000 feet.  
*leucantha*, Lemmon. Mountains from 1,000 to 3,000 feet.  
*longipes*, Torr. San Gabriel Mountains, rare and local.  
*Lyoni*, Gray. Catalina Island.  
*Mohavensis*, Gray. Big Rock Creek.  
*Parryi*, Torr. Mountains near Newhall.  
*ramosissima*, Dougl. Sea beach, Santa Monica; Redondo.  
*var. suffrutescens*, Parry. Mountains to 5,000 feet.  
*tanacetifolia*, Benth. Very common.  
*viscida*, Torr. Frequent on fire-swept hills.  
*var. albiflora*, Gray. Elysian Park; Santa Monica Range.  
*Whitlavia*, Gray. On fertile hillsides.

**Emmenanthe, Benth.**

- penduliflora*, Benth. Common around Los Angeles; less so on the mountains.

**Nama, Linn.**

- demissum*, Gray. Lancaster; Wilson's Peak; Newhall.  
*Parryi*, Gray. Wilson's Peak; Antelope Valley.  
*pusillum*, Lemmon. Lancaster.  
*stenocarpum*, Gray. Santa Monica.

**Eriodictyon, Benth.**

- glutinosum*, Benth. (Yerba Santa.) San Gabriel Mountains, 2,000 to 5,000 feet.  
*tomentosum*, Benth. A common shrub.

**BORAGINEÆ.****Coldenia, Linn.**

- brevicalyx*, Wats. Lancaster.

**Heliotropium, Tourn.**

- Curassavicum*, Linn. Sandy ground towards the coast.

**Amsinckia, Lehm.**

*intermedia*, F. & M. Westlake.

\**lycopsoides*, Lehm. Catalina. (Brandeggee.)

*spectabilis*, F. & M. Very common.

\**tessellata*, Gray. Catalina Island. (Brandeggee.)

**Krynitzkia, F. & M.**

*ambigua*, Gray. Frequent around Los Angeles.

*circumcissa*, Gray. Acton.

*intermedia*, Gray. Common on low grounds.

*micrantha*, Gray. Very common.

*microstachys*, Greene. Los Angeles; Catalina Island, frequent.

*ramosissima*, Greene. Catalina Island.

*setosa*, Greene. Harold; San Fernando.

**Plagiobothrys, Gray.**

*arizonicus*, Greene. Elizabeth Lake; Catalina Island.

var. *Catalinensis*, Gray. Catalina Island.

*canescens*, Benth. Lincoln Park; Azusa.

*Cooperi*, Gray. Near Los Angeles.

*nothofulvus*, Gray. Frequent at Los Angeles and Pasadena.

**Pectocarya, DC.**

*linearis*, DC. Not infrequent on low sandy grounds.

*setosa*, Gray. Mohave Desert.

**CONVOLVULACEÆ.****Convolvulus, Linn. Bindweed. Morning Glory.**

*arvensis*, Linn. Orchards and waste grounds in Los Angeles.

*Californicus*, Choisy. Catalina Island.

*macrostegius*, Greene. Catalina Island.

*occidentalis*, Gray. (Wild Morning Glory.) Very common.

var. *tenuissimus*, Gray. Wilson's Peak and higher hills.

*sepium*, Linn., var. *repens*, Gray. Wet places near Los Angeles; San Gabriel River.

*Soldanella*, Linn. Common on the seacoast.

**Ipomœa, Linn.**

*purpurea*, Lam. In cultivated fields near the city.

**Dichondra, Forst.**

*repens*, Forst. Catalina Island.

**Cressa, Linn.**

*Cretica*, Linn., var. *Truxillensis*, Choisy. On the seashore.

**Cuscuta, Tourn. Dodder.**

*Californica*, Choisy. Santa Monica and Catalina Mountains.

var. *longiloba*, Engelm. Santa Monica Range.

*subinclusa*, D. & H. Common in the interior.

**SOLANACEÆ.****Solanum, Tourn. Nightshade. Potato.**

*Douglasii*, Dunal. (Black Nightshade.) Very common.

*nigrum*, Linn., var. *villosum*, Mill. Occasional in waste places.

*rostratum*, Dunal. South Santa Monica.

*Xanti*, Gray. Foothills and mountains, very common.

var. *Wallacei*, Gray. Catalina Island.

**Physalis, Linn. Ground Cherry.**

*æquata*, Jacq. f. Common in tilled fields.

**Lycium, Linn.**

*Andersonii*, var. *Wrightii*, Gray. Lancaster.

*Californicum*, Nutt. Redondo; Long Beach; San Pedro.

*Cooperi*, Gray. Mohave Desert.

*Richii*, Gray. Catalina Island.

**Datura, Linn.** *Thorn Apple.*

*meteloides*, DC. Frequent towards the coast.

*Stramonium*, Linn. Fields at Ballona.

**Nicotiana, Tourn.** *Tobacco.*

*attenuata*, Torr. Rock Creek, 4,000 feet.

*Bigelovii*, Wats. River banks; Los Angeles; Pasadena, not common.

\*\* *var. Wallacei*, Gray. Near Los Angeles. (Bot. Cal.)

*glauca*, Graham. Well established around settlements.

**Petunia, Juss.**

*parviflora*, Juss. Frequent in alkaline swamps on the seaboard.

## SCROPHULARINEÆ.

**Verbascum, Linn.** *Mullein.*

*virgatum*, With. Well established; Altadena; El Monte; Lamanda.

**Linaria, Tourn.** *Toad-flax.*

*Canadensis*, Dum. In sandy cultivated soils.

**Antirrhinum, Tourn.** *Snapdragon.*

*Coulterianum*, Benth. Common in the foothills.

*glandulosum*, Lindl. Along streams; Los Angeles; Glendale; Switzers, etc.

*Nuttallianum*, Benth. Arroyo Seco; Rattlesnake Island, somewhat rare.

*speciosum*, Gray. Catalina Island.

*strictum*, Gray. Frequent in the Sierra foothills.

**Scrophularia, Figwort.**

*Californica*, Cham. Moist grounds, on stream banks and in woods.

**Collinsia, Nutt.**

*bicolor*, Benth. Moist hillsides, common.

*Davidsonii*, Parish. Southern rim of Mohave Desert.

*Parryi*, Gray. Shady places, Arroyo Seco; open grounds, Manzanita and Newhall.

**Pentstemon, Mitch.**

*breviflorus*, Lindl. Acton.

*Bridgesii*, Gray. Acton.

*centranthifolius*, Benth. Common on the inland plains.

*cordifolius*, Benth. On brush covered grounds.

*heterophyllus*, Lindl. Foothill cañons at Glendale; Arroyo Seco.

*labrosus*, Hook. f. On San Gabriel Mountains, 4,000 feet, abundant.

\*\* *lætus*, Gray. Near Los Angeles. (Bot. Cal.)

*Palmeri*, Gray. San Gabriel Mountains, 4,000 feet.

*spectabilis*, Thurb. Common on the lower hills.

*ternatus*, Torr. Wilson's Peak and Sierras generally.

**Mimulus, Linn.** *Monkey-flower.*

*Bigelovii*, Gray. Wilson's Peak; Lancaster.

*brevipes*, Benth. Very common on lower hills.

*cardinalis*, Dougl. Along streams, general but not common.

*exilis*, Dur. Wet grounds along streams.

*floribundus*, Dougl. With the last.

*Fremonti*, Gray. Los Angeles River; Wilson's Peak; Mohave Desert.

*glutinosus*, Wendl. Common on the foothills.

\*\* *inconspicuus*, Gray. From Los Angeles northwards. (Bot. Cal.)

*luteus*, Linn. Common on streams.

*var. depauperatus*, Gray. In mountain cañons.

*moschatus*, Dougl. Los Angeles River.

*var. sessilifolius*, Gray. Glendale.

*nasutus*, Greene. Creek banks, Santa Monica Range.

*Parishii*, Greene. Los Angeles River; Acton; Rock Creek.

*puniceus*, Steud. Catalina Island.

**Veronica, Linn.** *Speedwell.*

*Buxbaumii*, Ten. Casual in Los Angeles streets.

*peregrina*, Linn. Local, Fulton Wells; Pasadena; Lancaster; Santa Monica.

**Castilleja, Linn. f. *Painted-cup.***

- affinis, H. & A. Common at Lancaster.  
 foliolosa, H. & A. Dry hillsides from 1,000 to 3,000 feet.  
 linariæfolia, Benth. Wet meadows, Rock Creek.  
 miniata, Dougl. The common species.  
 parviflora, Bong. Hills around Los Angeles.  
 plagiotomia, Gray. Mohave Desert; Acton.  
 stenantha, Gray. Marshy grounds and stream banks, general.

**Orthocarpus, Nutt. *Owl's Clover.***

- Parishii, Gray. Tunnel, near Garvanza.  
 purpurascens, Benth. Very common.  
 var. Palmeri, Gray. Antelope Valley.

**Cordylanthus, Nutt.**

- filifolius, Nutt. Abundant on the lower hills  
 maritimus, Nutt. Saline places on seashore.  
 Nevinii, Gray. Acton.

**Pedicularis, Tourn. *Lousewort.***

- densiflora, Benth. Laurel Cañon.  
 semibarbata, Gray. Desert slope of Sierras, 5,000 feet.

## OROBANCHACEÆ.

**Aphyllon, Mich. *Cancer-root.***

- Californicum, Gray. Elysian Park.  
 comosum, Gray. Acton.  
 fasciculatum, Gray. Millard's Cañon.  
 Ludovicianum, Gray., var. Cooperi, Beck. Newhall  
 tuberosum, Gray. Echo Mountain, among shrubs. (Fl Pasa.)

## VERBENACEÆ.

**Verbena, Linn.**

- bracteosa, Michx. Sub-alkaline grounds, Temple street, Los Angeles.  
 polystachya, HBK. Marshy grounds, Los Angeles; Glendale; Arroyo Seco.  
 prostrata, R. Br. Common on low lands.  
 urticæfolia, Linn. In thickets and marshes near Los Angeles.

**Lippia, Linn.**

- lanceolata, Michx. Marshes at Cienega, Ballona, etc.

## LABIATÆ.

**Mentha, Linn. *Mint.***

- Canadensis, Linn. Streams and marshes, frequent.  
 piperita, Linn. Los Angeles River.

**Lycopus, Tourn. *Water Horehound.***

- lucidus, Turcz., var. Americanus, Gray. Bank of river at Los Angeles;  
 Ballona Creek

**Pycnanthemum, Mich. *Mountain Mint.***

- Californicum, Torr. Common in lower cañons.

**Monardella, Benth.**

- candicans, Benth. Lancaster.  
 lanceolata, Gray. Very general on low ranges.  
 linoides, Gray. Mountains around Desert at 5,000 feet.  
 odoratissima, Benth. Acton Mountains.

**Micromeria, Benth. *Yerba Buena.***

- Douglasii, Benth. Mountains north of Newhall; Santa Monica Range.

**Calamintha, Moench.**

- mimuloides, Benth. Mountains at Acton.

**Sphacele, Benth.**

- calycina, Benth., var. Wallacei, Gray. Wilson's and Switzer's trails.

**Audibertia, Benth.**

- grandifolia, Benth. Shaded banks of the Coast Ranges.

- incana*, Benth. Mohave Desert and surrounding mountains.  
*nivea*, Benth. Low hills from Santa Monica to Newhall.  
*polystachya*, Benth. (White Sage.) Dry hills, very common.  
*stachyoides*, Benth. (Black Sage.) Very common.  
*stachyoides* x *polystachya*. Lincoln Park and Los Angeles foothills.  
**Salvia, Linn. Sage.**  
*carduacea*, Benth. Sandy soil from Burbank to the desert.  
*Columbaria*, Benth. (Chia.) Frequent on dry hillsides.  
**Scutellaria, Linn. Skull-cap.**  
*angustifolia*, Pursh. Mountains at Rock Creek, 5,000 feet.  
*Bolanderi*, Gray. Moist woods, El Monte, very rare.  
*tuberosa*, Benth. On scrubby foothills, rather local.  
**Salazaria, Torr.**  
*Mexicana*, Torr. Abundant on Southern rim of Desert.  
**Marrubium, Linn. White Horehound.**  
*vulgare*, Linn. Very common on the plains.  
**Stachys, Linn. Woundwort.**  
*albena*, Gray. Wet places, mountains and marshes.  
*ajugoides*, Benth. Among shrubs on dry ridges.  
*bullata*, Benth. Frequent in moist woods.  
**Trichostema, Linn. Blue-Curls.**  
*lanatum*, Benth. Dry ridges of the Sierra foothills, not common.  
*lanceolatum*, Benth. Covering stubble fields in the autumn.

#### PLANTAGINEÆ.

- Plantago, Linn. Plantain.**  
*Coronopus*, Linn. (Buck's horn Plantain.) Catalina Island.  
*hirtella*, HBK. Moist meadows, Los Angeles; Pasadena.  
*lanceolata*, Linn. (Ribgrass.) Streets of Los Angeles and Pasadena.  
*major*, Linn. On low grounds, not common  
*\*Patagonica*, Jacq. Common on dry hills. (Fl. Pasa.)  
 var. *nuda*, Gray. Very common on dry slopes.

#### NYCTAGINACEÆ.

- Mirabilis, Linn. Four-o'clock.**  
*Californica*, Gray. Common on open hillsides.  
*multiflora*, Gray., var. *pubescens*, Wats. Manzanita.  
**Abronia, Juss.**  
*maritima*, Nutt. Common on the seashore.  
*umbellata*, Lam. Common on the seashore.  
*villosa*, Wats. Frequent on the Mohave Desert.

#### AMARANTACEÆ.

- Amarantus, Tourn. Amaranth.**  
*albus*, Linn. (Tumbleweed) Very common.  
*retroflexus*, Linn. Less common than the last.  
*blitoides*, Wats. Moist soil Santa Monica.  
**Alternanthera, Forsk.**  
*Achyrantha*, R. Br. Streets of Los Angeles.  
**Nitrophila, Wats.**  
*occidentalis*, Wats. Cienega.

#### CHENOPODIACEÆ.

- Aphanisma, Nutt.**  
*blitoides*, Nutt. Catalina Island; San Pedro.  
**Chenopodium, Linn. Goosefoot.**  
*album*, Linn. Common in waste and cultivated ground.  
 var. *viride*, Linn. Vernon.  
*ambrosioides*, Linn. A common weed.

Californicum, Wats. Frequent in the foothills.  
*murale*, Linn. (Pigweed.) Streets of Los Angeles.

**Monolepis, Schrad.**

*chenopodioides*, Moq. Cienega.

**Atriplex, Linn. Oraché.**

*bracteosa*, Wats. In waste grounds towards the coast.

\*\**Breweri*, Wats. Near Santa Monica. (Bot. Cal.)

*Californica*, Moq. Saline flats, Cienega; Ballona.

*canescens*, James. Mohave Desert.

*confertifolia*, Wats. Mohave Desert.

*Coulteri*, Dietr. Catalina Island.

*decumbens*, Wats. Catalina Island.

*expansa*, Wats. Ballona.

*leucophylla*, Dietr. On the seabeach.

*microcarpa*, Dietr. Frequent from Los Angeles to the coast.

*orbiculare*, Wats. Santa Monica beach.

*Parryi*, Wats. Lancaster.

*phyllostegia*, Wats. Mohave Desert.

*patula*, Linn. In waste places and brackish grounds.

**Eurotia, Adans.**

*lanata*, Moq. Lancaster.

**Salicornia, Tourn. Samphire.**

*ambigua*, Michx. Ballona; Cienega.

**Suaeda, Forsk. Sea Blite.**

*Torreyana*, Wats. Saline soils near the coast

*suffrutescens*, Wats. Santa Monica.

**Salsola, Linn.**

*Kali*, Linn., var. *tragus*, Moq. (Russian Thistle.) Lancaster.

**PHYTOLACCACEÆ.**

**Phytolacca, Tourn.**

*decandra*, Linn. Santa Monica.

**POLYGONACEÆ.**

**Rumex, Linn. Dock.**

*Acetosella*, Linn. (Sheep Sorrel.) Casual in Los Angeles and Pasadena.

*conglomeratus*, Murray. Pasadena.

*crispus*, Linn. Occasional around Los Angeles.

*hymenosepalus*, Torr. (Canaigre.) General in dry sandy places.

*persicarioides*, Linn. Frequent in wet places.

*salicifolius*, Weinm. In wet grounds.

**Polygonum, Linn. Knotweed.**

*aviculare*, Linn. Common in waste places.

*convolvulus*, Linn. Fields at Pasadena.

*hydropiperoides*, Michx., var. *strigosum*, Small. Pasadena.

*incarnatum*, Ell. Marshes, Los Angeles and Pasadena.

*nodosum*, Pers. Along streams and watercourses.

**Nemacaulis, Nutt.**

*Nuttallii*, Benth. Sandy soil on coast and in the interior.

**Eriogonum, Michx.**

*angulosum*, Benth. Mohave Desert.

*cinereum*, Benth. Seashore, Redondo; Santa Monica.

*crenulatum*, Parry. Lancaster.

*deflexum*, Torr. Mohave Desert.

*delicatulum*, Wats. Mohave Desert.

*elongatum*, Benth. Common in the foothills.

*fasciculatum*, Benth. (Wild Buckwheat.) Common.

*giganteum*, Wats. Catalina Island.

\**gracile*, Benth. Arroyo Seco. (Fl. Pasa.)

*gracillimum*, Wats. Antelope Valley.

Heermanni, D. & H. Mohave Desert.

inflatum, Torr. Lancaster and westward on the Desert.

latifolium, Smith. Bluffs near Santa Monica.

Mohavense, Wats. Mohave Desert.

molestum, Wats. General from Los Angeles to the Sierra tops.

nudum, Dougl. San Clemente and Catalina Islands.

var. oblongifolium, Wats. Acton.

var. pauciflorum, Wats. Desert mountains, 5000 feet.

parvifolium, Smith. Sea-shore sands.

pusillum, T & G. Dry sands, Rock Creek.

Plumatella, D. & H. Mohave Desert, eastern section.

saxatile, Wats. San Gabriel mountains, 4-5,000 feet.

stellatum, Benth. Desert mountains at 5,000 feet.

Thurberi, Torr. Common and general.

\*\*trichopodium, Torr. Los Angeles. (Bot. Cal.)

virgatum, Benth. Frequent in the Coast Ranges.

vimineum, Dougl. Elysian Park.

Wrightii, Torr., var. subscaposa, Wats. Common on Wilson's Peak.

#### **Oxytheca, Nutt.**

luteola, Parry. Frequent near Lancaster.

Parishii, Parry. Abundant on Wilson's Peak.

trilobata, Gray. Ravenna.

#### **Chorizanthe, R. Br.**

brevicornu, Torr. Lancaster.

Californica, Gray. Interior plains and foothills.

Fernando, Wats. San Fernando.

\*\*fimbriata, Nutt. Dry places. (Bot. Cal.)

leptoceras, Wats. Newhall.

Parryi, Wats. Newhall.

perfoliata, Gray. Rock Creek.

procumbens, Nutt. Mountains to 3,000 feet

staticoides, Benth. On dry hills, very common.

Thurberi, Wats. Mohave Desert; Newhall.

Watsoni, T. & G. Acton.

#### **Lastarriaa, Remy.**

Chilensis, Remy. Catalina Island.

#### **Pterostegia, F. & M.**

drymarioides, F. & M. Hillsides and dry places.

### **PIPERACEÆ.**

**Houttuynia, B. & H.** *Verba Mansa.*

Californica, B. & H. Moist, saline places.

### **LAURACEÆ.**

**Umbellularia, Nutt.** *Mountain Laurel.*

Californica, Nutt. Cañons San Gabriel Mountains; Santa Monica Range.

### **LORANTHACEÆ.**

**Phoradendron, Nutt.** *Mistletoe.*

Bolleanum, Eichl. On Junipers at Acton.

\*flavescens, Nutt. On oaks, sycamores and alders. (Fl. Pasa.)

var. macrophyllum, Engelm. Newhall, on Sycamores.

var. villosum, Engelm. On Forestiera on Mohave slopes.

**Arceuthobium, Bleb.**

occidentale, Engelm. On pine trees of the Desert slopes.

**EUPHORBIACEÆ.**

**Eremocarpus, Benth.**

setigerus, Benth. Abundant on adobe flats.

**Croton, Linn.**

Californicus, Muhl. Sandy places in the interior.

**Stillingia, Garden.**

linearifolia, Wats. Castaic.

paucidentata, Wats. Lancaster.

**Euphorbia, Linn. Spurge.**

albomarginata, T. & G. Common and general.

dictyosperma, F. & M. Shady slopes along the foothills.

leptocera, Engelm. Laurel Cañon, Catalina Island.

misera, Benth. Near the sea, Catalina Island.

Palmeri, Engelm. Around the Desert at 5,000 feet.

polycarpa, Benth. Common.

var. vestita, Wats. Santa Monica Range.

serpyllifolia, Pers. Lincoln Park; Newhall, rather rare.

**Ricinus, Linn. Castor Plant.**

communis, Linn. In frostless districts.

**URTICACEÆ.**

**Urtica, Tourn. Nettle.**

\*\*Breweri, Wats. Los Angeles. (Bot. Cal.)

holosericea, Nutt. Shaded stream banks.

urens, Linn. In waste grounds.

**Parietaria, Tourn. Pellitory.**

debilis, Forst. General in shrubby ground.

**Hesperocnide, Torr.**

tenella, Torr. San Clemente Island.

**PLATANACEÆ.**

**Platanus, Tourn. Sycamore.**

racemosa, Nutt. In moist, alluvial soil.

**JUGLANDACEÆ.**

**Juglans, Linn.**

Catifornica, Wats. Frequent towards the mountains.

**MYRICACEÆ.**

**Myrica, Linn. Bayberry.**

Californica, Cham. Santa Monica Cañon

**BETULACEÆ.**

**Alnus, Tourn. Alder.**

rhombifolia, Nutt. Cañons San Gabriel Mountains.

**CUPULIFERÆ.**

**Quercus, Linn. Oak.**

agrifolia, Nee. The park oaks of Santa Anita and San Fernando.

chrysolepis, Liebm. Common above 3,000 feet.

Douglasii, H. & A. Enciño.

dumosa, Nutt. The scrub oak of the foothills.

lobata, Nee. (White Oak.) Newhall; San Fernando.

McDonaldi, Greene. Catalina Island.

Morehus, Kell. Catalina Island.

Englemanni, Greene. With Q. agrifolia

tomentella, Engelm. Catalina Island, rare.

Wislizeni, A. DC. Desert slopes of San Gabriel Mountains.

## SALICINÆ.

**Salix, Tourn.** *Willow.*

- lævigata, Bebb. Common on river banks.  
 lasiandra, Benth., var. lancifolia, Bebb. Near Santa Monica.  
 lasiolepis, Benth. Very common.  
 nigra, Marsh. Near Elizabeth Lake.  
 sessilifolia, Nutt., var. Hindsiana, And. Dry interior valleys.

**Populus, Tourn.** *Poplar. Cottonwood.*

- Fremonti, var. Wislizeni, Wats. Newhall.  
 trichocarpa, T. & G. Mountain cañons, not common.

## CERATOPHYLLÆ.

**Ceratophyllum, Linn.** *Hornwort.*

- demersum, Linn. Rivers and pools.

## GNETACEÆ.

**Ephedra, Tourn.**

- Californica, Wats. On the desert slopes.  
 Nevadensis, Wats. Mountains at Acton.

## CONIFERÆ.

**Juniperus, Linn.** *Juniper.*

- Californica, Carr. Common on the Mohave Desert.

**Libocedrus, Endl.** *White Cedar.*

- decurrens, Torr. Frequent in the San Gabriel Mountains.

**Pseudotsuga, Carr.** *Douglas Spruce.*

- Douglasii, Carr., var. macrocarpa, Engelm. San Gabriel Mountains.

**Pinus, Tourn.** *Pine.*

- \*albicaulis, Engelm. Wilson's Peak. (Fl. Pasa.)  
 Lambertiana, Doug. Common in San Gabriel Mountains.  
 monophylla, T. & F. (Piñon Pine.) The lowest pine on Desert slope  
 \*monticola, Doug. Wilson's Peak. (Fl. Pasa.)  
 ponderosa, Doug. The common pine of the mountains.  
 Sabiniana, Doug. Fringing the pine belt at Manzana.

## ORCHIDÆ.

**Habenaria, Wild.**

- leucostachys, Wats. Moist places, Devils Gate; Garavanza.  
 Unalascensis, Wats. Santa Monica Range; near Pasadena.

**Spiranthes, Rich.** *Ladies' Tresses.*

- Romanzoffiana, Cham. Riviera.

**Epipactus, Hall.**

- gigantea, Doug. Arroyo; San Gabriel; Rock Creek streams.

## IRIDEÆ.

**Sisyrinchium, Linn.** *Blue-eyed Grass.*

- bellum, Wats. Very common.

- \*\*Californicum, Ait. f. On the seaboard. (Bot. Cal.)

## LILIACEÆ.

**Allium, Linn.** *Onion.*

- hæmatochiton, Wats. Dry rocky hills, Cahuenga; Glendale.  
 serratum, Wats. Near Glendale.  
 unifolium, Kell. Harold.

**Muilla, Wats.**

- coronata, Greene. Mohave Desert.  
 serotina, Greene. Common on interior hills.

**Bloomeria, Kell.**

aurea, Kell. Hillsides from Los Angeles to the mountains.

**Brodiaea, Smith.**

capitata, Benth. (Wild Onion.) Common everywhere.

minor, Wats. Rich meadows, Sunnyside; Garvanza.

**Chlorogalum, Kunth. Soap Plant.**

pomeridianum, Kunth. On hillsides, frequent.

**Yucca, Linn. Spanish Bayonet.**

brevifolia, Engelm. Mohave Desert.

Whipplei, Torr. Common to 4,000 feet.

var. graminifolia, Wood. Frequent around Pasadena and Los Angeles.

**Lilium, Linn.**

Humboldtii, R. & L. Cañons, San Gabriel Mountains and Coast Ranges.

**Fritillaria, Linn.**

biflora, Lindl. Open shady slopes, Santa Monica Range; Garvanza.

**Calochortus, Pursh. Mariposa Lily.**

albus, Doug. Frequent in the foothills of Coast Ranges.

Catalinae, Wats. Catalina and Coast Range.

clavatus, Wats. Laurel Canon; Glendale; Newhall.

flexuosus, Wats. Lancaster.

Kennedyi, Porter. Desert from Palmdale to Manzanita.

luteus, Doug. Hills near Saugus.

Palmeri, Wats. Big Rock Creek, 5,500 feet.

splendens, Doug. Frequent in foothills and mountains.

venustus, Benth. Newhall, abundant; Glendale; San Fernando.

var. purpurascens, Wats. With the type.

Weedii, Wood; var. purpurascens, Wats. Common in the foothills.

**Zygadenus, Michx.**

Fremonti, Torr. From the Coast Ranges to Newhall, not common.

**TYPHACEÆ.****Typha, Tourn. Cat-tail Flag.**

angustifolia, Linn. Common in marshes.

latifolia, Linn. With the last.

**Sparganium, Tourn. Bur-weed.**

eurycarpum, Engelm. Ponds and streams, Fulton; Glendale, etc.

**LEMNACEÆ.****Lemna, Linn. Duckweed**

\*gibba, Linn. Johnson's Lake. (Fl. Pasa.)

Valdiviana, Phil. Common in pools.

**NAIADACEÆ.****Najas, Linn.**

flexilis, R. & S. Near Soldiers' Home.

**Phyllospadix, Hook.**

Torreyi, Wats. Catalina Island.

**Zannichellia, Mich. Horned Pondweed.**

palustris, Linn. Cienega; Ballona marshes.

**Ruppia, Linn. Ditch-grass.**

maritima, Linn. Santa Monica.

**Potamogeton, Tourn. Pondweed**

fluitans, Roth. Pond near Garvanza.

foliosus, Michx., var. Californicus, Morong. Oak Knoll.

pectinatus, Linn. Common in streams and ponds.

**Triglochin, Linn. Arrow-grass.**

maritima, Linn. Marshes of the seaboard.

## ALISMACEÆ.

**Echinodorus, Rich.**

rostratus, Engelm. Garvanza.

**Sagittaria, Linn. Arrow-head.**

calycina, Engelm. Ballona.

variabilis, Engelm. Zanzas, Los Angeles; Glendale.

## JUNCACEÆ.

**Juncus, Linn.**

acutus, Linn., var. sphaerocarpus, Eng. The common seashore species.

Balticus, Deth. Common along Los Angeles River.

bufonius, Linn. Frequent in wet ground.

compressus, HBK. Oak Knoll. (Fl. Pasa.)

dubius, Engelm. Acton.

Lescurii, Boland., var. elatus, Wats. Dry plains, San Fernando to Los Angeles

longistylis, Torr. San Gabriel Mountains at 4,000 feet, frequent.

\*nodosus, Linn. Oak Knoll. (Fl. Pasa.)

var. megacephalus, Torr. River at Los Angeles.

phæocephalus, var. glomeratus, Engelm. Frequent on stream banks.

var. paniculatus, Engelm. With the last.

## CYPERACEÆ.

**Cyperus, Linn.**

diandrus, Torr., var. capitatus, Britt. Wet grounds.

\*erythrorhizos, Muhl. Oak Knoll; Baldwin's Ranch. (Fl. Pasa.)

lævigatus, Linn. In the River at Los Angeles; Arroyo Seco.

esculentus, Linn. Los Angeles River.

speciosus, Vahl. Casual, Los Angeles River.

\*\*unioloides, R. Br., var. bromoides, Clarke. Cienega.

**Scirpus, Linn. Bull-rush Club-rush.**

atrovirens, Muhl. Marshes in Los Angeles; Glendale.

lacustris, Linn., var. occidentalis, Wats. Common "Tule" of the marshes.

maritimus, Linn. Long Beach; Redondo.

Olneyi, Gray. Marshes, Pasadena and Los Angeles.

riparius, Spreng. Los Angeles River.

sylvaticus, Linn., var. microcarpus, McMill. Oak Knoll. (Fl. Pasa.)

Tatora, Kunth. Common among "Tules"

**Eleocharis, R. Br. Spike-rush.**

acicularis, R. Br. Common in river bottoms.

arenicola, Torr. Los Angeles; Oak Knoll; Ballona.

palustris, R. Br. Catalina Island.

rostellata, Torr. Common on river bottoms.

**Cladium, R. Br. Saw-grass.**

\*\*Mariscus, R. Br., var. Californicum, Wats. Near San Gabriel. (Bot. Cal.)

**Carex, Linn. Sedge.**

acuta, Linn. Marshes, Los Angeles; Glendale

alba, Bailey. Acton

Barbaræ, Dew. Common in marshes.

filiformis, Linn., var. lanuginosa, B. S. P. Marshes.

Hookeriana, Dew. Common on brackish flats.

laciniata, Boott. Glendale; Santa Monica Range.

marcida, Boott. Acton.

multicaulis, Bailey. Wilson's Peak; Mount Lowe.

occidentalis, Bailey. East Santa Monica Range.

Pseudo-Cyperus, Linn., var. comosa, Boott. Cañon near Burbank.

spissa, Bailey. Cañons of the Coast Range.

teretiuscula, Good., var. ramosa, Boott. Cañons of the Altadena Hills. (Fl. Pasa.)

triquetra, Boott. Frequent on dry grounds.

## GRAMINEÆ.

**Andropogon, Linn.**

- macrourus*, Michx. Rubio and Eaton Cañons. (Fl. Pasa.)  
*saccharoides*, Swartz. Rocky hills, Elysian Park; Cahuenga.  
*Sorghum*, Brot. (Sorghum.) Frequent escape from cultivation.

**Paspalum, Linn.**

- distichum*, Linn. Common in moist grounds.

**Panicum, Linn. Panic-Grass.**

- capillare*, Linn. (Witch Grass.) Frequent in dry soils.  
*colonum*, Linn. Streets of Los Angeles.  
*Crus-galli*, Linn. ("Hungarian Brome.") Along ditches and streets.  
*sanguinale*, Linn. (Crab-grass) Common throughout Los Angeles.

**Setaria, Beauv. Bristly Fox-tail Grass.**

- caudata*, R. & S. Well established in Los Angeles streets  
*glauca*, Beauv. Occasional, Los Angeles streets.

**Phleum, Linn. Timothy.**

- pratense*, Linn. Along streets and in lawns, rare.

**Phalaris, Linn. Canary Grass.**

- Canariensis*, Linn. Occasional in waste places.  
*intermedia*, Bosc. Waste places, Pasadena; near Soldiers' Home.  
 var. *angustata*, Chapm. At Santa Monica, frequent.  
*Lemmoni*, Vasey. Sunnyside.

**Sporobolus, R. Br. Drop-seed Grass.**

- airoides*, Torr. Lancaster.

**Epicampes, Presl.**

- rigens*, Benth. From foothill to mountain top.

**Polypogon, Desf. Beard Grass.**

- littoralis*, Smith. Moist soil, Lincoln Park. (Fl. Pasa.)  
*Monspeliensis*, Desf. Common in moist soils.

**Agrostis, Linn. Bent Grass.**

- exarata*, Trin., var. *Pacifica*, Vasey. In wet places.  
*microphylla*, Steud. Altadena; Sierra Madre. (Fl. Pasa.)  
*multiculmis*, Vasey. Dry ridges, Santa Monica; Rubio Cañon.  
*verticillata*, Vill. Common in wet places.  
*vulgaris*, With. Meadows, Big Rock Creek.

**Gastridium, Beauv. Nit-grass.**

- australe*, Beauv. Common towards the coast.

**Muhlenbergia, Trin. Drop-seed Grass.**

- debilis*, Trin. Dry hillsides, not common.  
*gracilis*, Trin. Catalina Island.  
*Parishii*, Vasey. Cañons near Pasadena.

**Eriocoma, Nutt. Silky grass.**

- cuspidata*, Nutt. Mohave Desert.

**Stipa, Linn. Feather Grass.**

- Andersoni*, Vasey. Santa Monica Range.  
*coronata*, Thurb. Frequent in the foothills.  
*eminens*, Cav. Mountains and hillsides  
*Hassei*, Vasey. Santa Monica Range.  
*setigera*, Presl. Very common.  
*speciosa*, T. & R. San Fernando, rare; Acton.  
*viridula*, Trin. Elysian Park.

**Aristida, Linn. Triple-awned Grass.**

- bromoides*, HBK. Dry hillsides, not common.  
*Humboldtiana*, T. & R., var. *minor*, Vasey. Altadena, common.

**Spartina, Schreb. Mat-grass.**

- stricta*, Roth. Common in salt marshes on the seacoast.

**Cynodon, R. & H. Bermuda Grass.**

- dactylon*, Pers. A troublesome weed in the cities.

**Leptochloa, Beauv. Slender Grass.**

- imbricata*, Thurb. Brackish flats at Santa Monica.

**Pleuraphis, Torr.**

*rigida*, Thurb. Mohave Desert.

**Danthonia, DC. Wild Oat-grass.**

*Californica*, Boland. Newhall.

**\*\*unispicata**, Munro. From San Diego to San Francisco. (Bot. Cal.)

***Avena*, Linn. Oat.**

*fatua*, Linn. Commonly known as "Wild Oats."

*barbata*, Brot. Along streets, Pasadena; Los Angeles.

**Trisetum, Beauv.**

*barbatum*, Steud. Arroyo Seco. (Fl. Pasa.)

**Monanthocloe, Engelm.**

*littoralis*, Engelm. Catalina Island.

**Holcus, Linn. Soft-grass.**

*lanatus*, Linn. Santa Anita; Oak Knoll.

**Deschampsia, Beauv. Hair Grass.**

*calycina*, Presl. Hills in the Coast Range.

**Achyrodes, Boehm.**

*aureum*, O. Ktze, Freely established.

**Arundo, Linn.**

*donax*, Linn. Common along Los Angeles River.

**Dactylis, Linn. Orchard Grass**

*glomerata*, Linn. In lawns.

**Koeleria, Pers.**

*cristata*, Pers. Frequent from plain to mountain top.

**Cynosurus, Linn. Dog's-tail Grass.**

*cristatus*, Linn. In lawns, rare.

**Melica, Linn. Melic.**

*imperfecta*, Trin. Common on low hills.

var. *flexuosa*, Thurb. Local at Santa Monica.

var. *refracta*, Thurb. Santa Monica.

**Distichlis, Raf. Spike-grass.**

*maritima*, Raf. Sea-coast; alkaline flats in interior.

**Poa, Linn. Meadow-grass.**

*annua*, Linn. Streets and waste grounds.

*Pendleriana*, Vasey. Very common.

*pratensis*, Linn. Lawns and streets.

*scabrella*, Vasey. Pasadena

**Stenochloa, Nutt.**

*Californica*, Nutt. Catalina Island.

**Festuca, Linn. Fescue-grass.**

*elatior*, Linn., var. *pratensis*, Huds. Lawns, Santa Monica; Los Angeles.

*microstachya*, Nutt. Common on grassy hills.

*Myurus*, Linn. Widely and well established.

*tenella*, Willd. On hillsides, frequent.

**Bromus, Linn. Brome-grass.**

*carinatus*, Hook. North slope of San Gabriel mountains.

*ciliatus*, Linn. Common in shady places.

*Hookerianus*, Thurb. Common on lower grounds.

*maximus*, Desf. Frequent around Los Angeles.

*mollis*, Linn. Streets and wastes, not common.

*rubens*, Linn. Santa Monica; Gorman Station.

*secalinus*, Linn. Glendale, Los Angeles River; rare.

**Eragrostis, Beauv.**

*major*, Host. River bottom at Los Angeles.

*Mexicana*, Link. Along streets in Los Angeles and Pasadena.

**Lepturus, R. Br.**

*paniculatus*, Nutt. Long Beach.

**Lolium, Linn.** *Rye Grass.**perenne*, Linn. Abundant at Cienega.*temulentum*, Linn. Frequent in cultivated ground.*var. arvense*, With. (Darnel.) Occasional in waste places.**Triticum, Linn.** *Wheat Grass.**repens*, Linn. Catalina Island; vicinity of Los Angeles.**Hordeum, Linn.** *Barley.**murinum*, Linn. A too common grass.*pusillum*, Nutt. Waysides; not so common.**Elymus, Linn.** *Lyme-grass.**condensatus*, Presl. Frequent in the foothills.*Orcuttianus*, Vasey. Elysian Park.*glaucus*, Bull., *var. tenuis*, Vasey. San Gabriel Mountains; Elysian Park.*triticoides*, Nutt. Foothills San Gabriel Mountains; Santa Monica Range.*Sitanion*, Schult. Very common on lower grounds.**Monanthochloe, Engelm.***littoralis*, Engelm. Coast marshes; Catalina Island.

## PTERIDOPHYTA.

## FILICES.

**Cystopteris, Bernh.** *Bladder Fern**fragilis*, Bernh. Little Santa Anita Cañon, very rare.**Aspidium, Swartz.** *Shield Fern.**minutum*, Kaulf. Cañons in the higher ranges.*rigidum*, Swartz., *var. argutum*, Eaton. In foothill cañons, frequent.**Asplenium, Linn.** *Spleen-wort.**Trichomanes*, Linn., *var. incisum*, Moore. Millard's Cañon; Santa Anita Cañon.**Woodwardia, Smith.** *Chain Fern.**radicans*, Smith. Frequent in the foothill cañons.**Pellaea, Linn.** *Cliff Brake.**andromedæfolia*, Fee. (Coffee Fern.) Common on shady hillsides.*ornithopus*, Hook. (Bird-foot Fern.) Dry foothills, not common.**Pteris, Linn.** *Brake.**aquilina*, Linn. Common in all mountain cañons.*var. lanuginosa*, Bong. Near Santa Monica.**Adiantum, Linn.** *Maiden-hair Fern.**Capillus-veneris*, Linn. Millard's and Rubio Cañons, rather rare.*emarginatum*, Hook. Very common on shady banks.*pedatum*, Linn. Wilson's Peak; Little Santa Anita Cañon, rare.**Cheilanthes, Swartz.***Californica*, Mett. (Lace Fern.) Mountain cañons.*myriophylla*, Desv. In rocky clefts above 4,000 feet.*Cooperæ*, Eaton. Mountain cañons near Saugus.**Notholaena, R. Br.***Newberryi*, Eaton. (Cotton Fern.) Eaton Cañon; Mount Lowe.**Gymnogramme, Desv.***triangularis*, Kaulf. (California Gold-fern.) Common on shady banks.*var. viscosa*, Eaton. Catalina Island.**Polypodium, Linn.** *Polypody.**Californicum*, Kaulf. Very common on dry banks.*Scouleri*, H. & G. Catalina Island.

**EQUISITACEÆ.**

- Equisetum**, Linn. *Horse-tail. Scouring Rush.*  
 \***Mexicanum**, Wilde. Arroyo Seco. (Fl. Pasa.)  
**robustum**, A. Br. Common in foothill cañons.  
**Telmateia**, Ehrh. Rivers and wet places, common.  
**variegatum**, Schl. River at Los Angeles.

**SELAGINELLACEÆ.**

- Selaginella**, Beauv.  
**rupestris**, Spring. Mountains generally.

**MARSILEACEÆ.**

- Marsilia**, Linn.  
**vestita**, H. & G. Near Santa Monica.

**SALVINIACEÆ.**

- Azolla**, Lam.  
**fliculoides**, Ehrh. Very common on stagnant pools.

**ERRATA.**

Page 1, for **Papavaraceæ**, read **Papaveraceæ**.

*Cerastium viscosum*, on page 4, and *Portulaca oleracea*; *Malva parviflora*; *Linum usitatissimum* on page 5 ought to have been printed in italics.

Page 17, for *Centuarea*, read *Centaurea*.

Page 20, *Phacelia heterosperma* is a synonym for *P. Lemmoni*, Gray.

**Addenda.****LEGUMINOSÆ.**

*Hoffmanseggia stricta*, Benth. In an alfalfa field near Alhambra.

**COMPOSITÆ.**

*Leptosyne calliopsidea*, var. *nana*, Gray. Roadsides, Manzana.  
*Lactuca Scariola*, Linn. Near University Station.

**LABIATÆ.**

*Mentha rotundifolia*, Huds. Verdugo Park.

**AUDIBERTIA STACHYOIDES X POLYSTACHYA.**

Shrubby resembling in appearance *A. stachyoides*; stems hoary; leaves hoary tomentose less rugose than in *A. stachyoides* and slightly folded; bracts akin to those of *A. stachyoides*; flower 9 lines long, upper lip  $2\frac{1}{2}$  lines long, slightly cleft, lower lip in shape resembling that of *A. polystachya*, straight or slightly folded; no hairs beyond the throat; Stamens  $4\frac{1}{2}$  lines long as long or longer than the lower lip and divergent. Flowering, April, May and June.

Botanists have previously considered these hybrids as but forms of a variable species, but they seem to be genuine hybrids. Two main types of this hybrid are to be found, one closely allied to *A. stachyoides* and the other more nearly allied to *A. polystachya*. Only occasionally are the whorls of the inflorescence arranged as in *A. Polystachya*. The foliage is always more or less tomentose, and the shape of the leaf is exactly intermediate between the straight form of *A. stachyoides* and the folded form of *A. Polystachya*. The flower is intermediate in size between that of *A. stachyoides* and *A. polystachya* with the upper lip nearly of the size and shape of that of the former and the lower lip of that of the latter. The stamens in *A. stachyoides* stand upright against the upper lip; in *A. polystachya* they diverge against the lower lip; in the hybrid they occupy an intermediate position between those points.

This hybrid is quite common in the foothills and at Lincoln Park where it was first discovered by Miss Alice J. Merritt.

For illustration see page 36.

## PLATE I.

*Gella Dr. f. m. m.*

- I. Flowers of *Audibertia stachyoides*, Benth.  
 II. Flowers of *Audibertia stachyoides* x *polystachya*.  
 III. Flowers of *Audibertia polystachya*, Benth.

Enlarged nearly twice the natural size.
